## **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: Best references noted are Zahavi et al and prior art Fig. 1 contained in this application. The present invention distinguishes over these two references by the optical property of the beamsplitter of the present pulse stretcher. A surface of this beamsplitter is configured to have a plurality of zones, wherein each zone has its own reflectivity, to cooperate with at least two mirrors forming a delay loop and arranged so as to produce a sequence of pulse replicas in a spatially displaced and temporally spaced characteristic, with each replica having a predetermined energy or the same energy.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Loha Ben whose telephone number is (571) 272-2323. The examiner can normally be reached on Monday to Saturday, generally between 12:00 noon and 8:00 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Georgia y. Epps, can be reached on Monday to Friday, at (571) 272-2328. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
